

# Komputers for Kids

The Sarasota Technology Users Group (STUG) is your new contact for Sarasota County Schools student computer needs! Beginning the 2017-2018 school year, STUG will be taking over the Personal Technology Program (formerly Texcellence).

**Procedure:** School liaisons will send an email to STUG recommending a student for a laptop. The email needs to contain the student name, parent name and phone number. The phone number is needed to tell the student the computer is ready. Once called the student can pickup the computer at the address below.

**Requirements:** Student must be recommended by the liaison as needing a computer.
